

Country Meadows Retirement Communities

Fast Facts

Company

Country Meadows Retirement Communities

Operating eleven campuses throughout Pennsylvania and Frederick, Maryland. Provides a range of senior lifestyle options and personalized care.

Industry

Retirement Community

Challenges

- Upgrade an antiquated inspection process for all Country Meadow facilities.
- Select a comprehensive inspection reporting solution that would not only be easy to use but would accurately document device specific data in compliance with regulatory standards.

Solution

BuildingReports' ScanSeries technology and software services.

Results

- Improved compliance reporting and inventory validation
- Easier, more efficient reporting and tracking system

Company Profile

Rated among the top elder care facilities in the U.S., Country Meadows Retirement Communities takes pride in understanding the needs of their residents while improving their lives through personalized care. Offering eleven campuses including two nursing facilities, Country Meadows' residents enjoy top-notch accommodations in park-like settings located throughout Pennsylvania and Frederick, Maryland. At Country Meadows, residents are afforded the opportunity to live purposeful lives, enjoy their independence, and make friends all with the respect they deserve.

Country Meadows provides a range of lifestyle options for seniors from Independent and Assisted Living to Skilled Nursing Care at their facilities or through their at-home program. In 2010, the Assisted Living Federation of America awarded Country Meadows the Best of the Best Award for its Circles of Life, Fitness Walking Trail and Long Distance Training programs.

Challenge

As a premier retirement community, Country Meadows not only needed to provide a healthy lifestyle for its residents but see to their safety as well. It was important that Country Meadows upgrade its fire and life safety systems and inspection program to ensure proper safety in all their facilities. The safety team needed to find a reporting solution that would support new and existing life safety systems and ensure compliance with regulatory standards. In addition, Country Meadows needed an easy-to-use, web-based solution that would allow their in-house staff to produce accurate and comprehensive reports online, in an efficient and timely manner while upholding the standards at Country Meadows.

"BuildingReports inspection reporting system saves time and provides an efficient and easy process for inspection staff to follow. I needed to validate our inspections and BuildingReports brought that into the picture."

Country Meadows Retirement Communities

Solution

Country Meadows’ corporate engineer in charge of life safety chose BuildingReports web-based technology to help solve their inspection-reporting challenges. BuildingReports ScanSeries inspection products enabled in-house staff to conduct thorough inspections easily using hand-held computers to scan bar-coded devices and upload results to a secure online database. BuildingReports digital reporting provided detailed reports with device specific information. BuildingReports delivered accurate and comprehensive inspection reports that were fully documented in compliance with regulatory standards. BuildingReports’ Third Party Verification and certification ensured verifiable inspection results for Country Meadows.

Results

BuildingReports’ ScanSeries reporting services offered an easy-to-use inspection solution that provided detailed data and statistical analysis on every device inspected, enabling Country Meadows staff to streamline their inspection process while providing comprehensive reports and verifiable results. Country Meadows remains one of the premier retirement communities in senior care and safety in the country.
