

ManagerSeries®

With the industry-leading inspection reporting tools, BuildingReports also provides comprehensive service management tools. Unmatched accessibility and secure data give users a more efficient way to manage building inspections and take action on repairs or code requirements faster.

COMPLETE MANAGEMENT SOLUTION

The ManagerSeries application tools expand the functionality of BuildingReports' robust inspection reporting system to a full-fledged inspection and service management solution. Users can access schedules, service tickets, notifications, and reports, and manage accounts online, 24/7 from any location for flexible property or project management. ManagerSeries applications include AccountManager, SchedulingManager, NotificationManager and ServiceManager.

INNOVATIVE TECHNOLOGY

BuildingReports' innovative digital technology is easy-to-use and features unmatched accessibility. Designed for standard Internet browsers and mobile devices, ManagerSeries gives users the ability to send and receive data or enter information instantly from anywhere. By leveraging best-in-breed technology, ManagerSeries is the most efficient online service management solution on the market.

COMPATIBILITY

Using advanced web technologies, ManagerSeries provides users with a desktop application-like feel for use on any device or OS.

RELIABLE SECURITY

BuildingReports guarantees the security of your data with vigorously protected servers, multiple daily backups, and off-site data archiving. BuildingReports provides 256-bit data encryption and GeoTrust® security. While your data resides on BuildingReports' servers you can be assured that the data belongs to you, giving you the confidence in the security and integrity of your information.

The most trusted name in
compliance reporting

The BuildingReports Advantage

Now you can maximize efficiency, save money and reduce risk by managing critical inspection data with BuildingReports' detailed online reports. BuildingReports puts information at your fingertips. Just login to your secure account and review your report, authorize repairs, manage inventory and view inspections. Your information is accessible whenever and wherever you need it and immediately available to print for binder insertion when required. For more information about BuildingReports web-based fire and life safety inspection-reporting solutions, call +1 770 495 1993, email info@buildingreports.com or visit our website at www.buildingreports.com.

ACCOUNTMANAGER

The AccountManager tool enables users to easily manage accounts within their secure online portal. An interactive dashboard provides users the ability to manage accounts at a group level instead of working with individual owner accounts and buildings.

- Allows users to view and group all buildings and owners associated with a customer into specified accounts.
- Enables user to manage access privileges at the account or individual level.
- Building inspection schedules can be created in conjunction with SchedulingManager.
- Unique interfaces allow users to better manage entire facility and user portfolio.

NOTIFICATIONMANAGER

NotificationManager is a management tool that will automatically send an SMS or email message when specified activities take place concerning users within your organization or online portal.

- Keep tabs on company inspection and service activity with automatic email and SMS notifications.
- Enables users to notify customers when new inspection reports are available.
- Ability to alert sales or account management staff when there are reports with discrepancies.
- Allows users to create email alerts for many types of work activities.

SERVICEMANAGER

ServiceManager allows users to create, track and dispatch service appointments and manage workflow through multiple calendar interfaces. It also allows field staff to update service tickets remotely during service appointments.

- Permits users to easily communicate and confirm upcoming service appointments via email.
- Allows user-entered database of system components and labor rates for efficient service ticket creation.
- Convenient tracking of service pricing and tech hours.
- BRMobile enables users to easily manage service events in the field.

SCHEDULINGMANAGER

SchedulingManager allows users to conveniently track inspections and manage workflow through efficient calendar interfaces. Users can quickly view scheduled events by the month, week or day.

- Manage inspection schedules through an efficient calendar interface with multiple views.
- Permits users to communicate and confirm upcoming inspections automatically via email.
- Track inspection schedules in the field with BRMobile.
- Keep track of inspector hours for better resource management.
