Eliminate manual, paper inspection reporting with BuildingReports' easy-to-use mobile inspection and online reporting solutions. Along with an online database of fire and life safety equipment and national and local safety regulations, BuildingReports makes compliance and preventative maintenance reporting more efficient and accurate.

SCANSERIES® MOBILE INSPECTION SUITE FOR IOS AND ANDROID

ScanSeries is a suite of industry leading applications for device-specific inspection and reporting of fire and life safety and security systems. BuildingReports' ScanSeries ensures accurate and comprehensive inspections that are fully documented and in compliance with regulatory standards.

MANAGERSERIES® CUSTOMER & SERVICE MANAGEMENT

ManagerSeries allows users to conveniently schedule, dispatch and track inspections and service work while managing workflow through efficient calendar interfaces. Users can quickly view scheduled events by the month, week, or day. ManagerSeries® also provides a listing of detailed inspection events for future years.

BRFORMS® DIGITAL INSPECTION FORMS

BRForms is a mobile and web-based application that enables unmatched digital forms distribution, availability, and accessibility. With BRForms, users can quickly create new digital forms or convert existing paper forms into digital documents. Users then complete the form online or on a mobile device and securely upload them to a company's web portal for immediate availability.

BuildingReports provided an easier process for staff to upload and download inspection information – with much more accurate reporting results.

ADVANCED TOOLS TO ENHANCE SERVICE DELIVERY

BuildingReports provides optional add-on solutions to customize your solution and help you grow recurring revenue. From direct code references to interactive floor plans and custom-branded web portals that look just like your website, BuildingReports has a full range of solutions to meet almost any need.

- **Embedded Codes & Standards™**: BuildingReports has developed an automated library code reference for literally thousands of typical discrepancies encountered during a ScanSeries inspection. These discrepancies are linked to the latest edition of codes and standards from leading organizations such as the NFPA, OSHA, NIOSH, and CMS accredited agencies such as The Joint Commission.
- **WebSkins™**: Through a secure, customized portal, BuildingReports enables service companies to make inspection, testing, and maintenance reports easily accessible to authorized users. By matching the branding and design of your existing site, BuildingReports gives you the powerful features of mobile device data capture service and web-based reporting with a consistent look and feel for your customers.
- **DocDrive™ & DocDrive™ Plus**: DocDrive enables the storage and sharing of any document in any file format for all users in your organization, including proposals, quotations, job documents, images, drawings, panel programs, invoices, operating manuals, cut-sheets, inspection photos and more. Service companies can even create time-lapsed recreations of the inspection or service call using facility floor plans based on device location and device scan time stamps.
- **LiveArchive® & ScanHistory®**: With a valid login and a simple point-and-scan of the LiveArchive QR code sticker, users can access a building's inspection log history from the fire panel or any other access point as desired. ScanHistory allows authorized users to see a device's entire inspection and testing history with the ScanHistory app embedded within ScanSeries.
- **Specialized Solutions by Industry**: BuildingReports delivers on industry-specific requirements for high-value occupancy types to close and retain more new contracts, including healthcare, industrial, manufacturing, education, energy, maritime, and more.

TESTIMONIALS

"My techs like BuildingReports' reports because they are easy to upload and download and easy to access. Inventory counts are easier to find, and customers can log on to their own accounts and view reports as soon as they are done with the service."

— Catherine Schueller, President
Allied Fire Protection, Inc.

"I'm able to do preventative maintenance on fire systems now because of BuildingReports. I am now on a battery replacement cycle every four years, and now I can see what's coming up a year ahead."

— David Resmondo, Low Voltage Supervisor
Atlanta Public Schools

"The AHJs and OSHA officials were amazed at the level of detailed information in our inspection reports. They were very pleased – and that's a major benefit for us."

— Dana Rogers, Technical Operations
Sky Harbor International Airport

"We were recently awarded the contract to test the fire alarm systems at a local university. BuildingReports has provided a level of organization, communication and understanding never experienced from a fire alarm inspection contractor."

— Scott Dulaney, President/GM
Performance Systems Integration Corp

Not only can I access it online remotely anytime, even on the weekends, but I can quickly get the information I need and get a deeper dive than would ever be possible with paper. When you manage as many facilities as we have, we need quick access to information and inspection results.
