

Scanning Devices

ScanSeries™, BuildingReports' complete of suite of inspection applications, is now available for iOS and Android.

BuildingReports is the first in the industry to offer its suite of inspection applications, ScanSeries, for iOS and Android, giving members broader accessibility and extensive range for mobile inspection reporting.

ScanSeries iOS is available for use with the iPhone and iPod Touch. BuildingReports recommends combining an iOS device with:

- A dedicated imager to eliminate slow camera scanning.
- Auxiliary long-life battery to extend uninterrupted inspections.

For fans of Android, BuildingReports provides the Symbol (formerly Motorola) TC55 with integrated phone and barcode scanner as the most suitable for the myriad of environments field-users experience throughout a workday. The TC55's integrated barcode scanner allows:

- Immediate scan capture.
- Extended-life battery for continued use.
- Rugged outer layer and boot protect against multiple hard-surface drops.

BuildingReports also offers the Android-based Janam XM5. This ruggedized device comes with the following features in two different options:

- Sealed to IP65 standards and UL-certified to provide ultimate reliability in extreme conditions.
- Meets Class I Div 2 area requirements where ignitable concentrations of flammable gases, vapors or liquids may exist.
- A 2D imager with camera, or available in a non-camera configuration for secure areas where cameras are prohibited.

SLEDS & KITS

BuildingReports has available the following sleds and kits:

- Linea Pro – Bring Your Own Device
(iPhone not included)
- Linea Pro Turn-Key Wi-Fi Kit – includes Linea Pro case and iPod Touch
- Janam XM5 mobile computer (Android solution) – meets Class I Div 2 requirements, available in a non-camera configuration for environments where cameras are prohibited
